## Did You Say Brand New?!

Incredible value...This Masterton 'Allenby' three bedroom home is only recently built and is waiting for a lucky buyer to come along with some minor finishing touches to be made in order for the home to realize its full potential. Positioned on the high side of the street on a great 1016m<sup>2</sup> block, the home features a quality knebel kitchen, built ins to all, natural gas heating and hot water, two way bathroom and a single garage umr. There is also a separate double garage and workshop as well as side access on the block. Does all this sound cheap? That's because it is! Inspect today...
