

## 2A Campbell Street Picton, NSW

### Vacant Land - 1051m<sup>2</sup>

This vacant parcel of land located in the heart of Picton is certainly one of a kind. The block is situated amongst historic homes in one of Picton's finest streets.

To my knowledge this is the only remaining vacant block in this popular location.

Start here to build your replica home with character among quality homes in an established area.

The block is near level with a gentle slope running towards the rear than backing onto the beautiful Stonequarry Creek.

This block of land will create a lot of interest in today's market place.

Great spot to start building your dream home today.
