Central to the well kept "Masterton" home is a huge renovated kitchen with Caesarstone bench tops, breakfast bar and European appliances. The kitchen opens out to the dining area and rear living area with views to the luxuriant back yard.

The master bedroom is sizeable with fantastic storage which includes walk-in-robe plus an additional built-in-robe, the ensuite is modern and of a good size. The remaining two bedrooms have built-in robes. There is also a possibility of creating a fourth bedroom. In addition there is a separate office/study.
