Architect Designed Home - Stylish & Sophisticated on 1 Acre

Style and sophistication best describe this architect designed home on 1 acre.

The house is well appointed and exudes "savoir faire". With access along a long 75m driveway your privacy is assured.

This generous lifestyle home boasts 4 spacious living areas all with huge window and views to the lush garden surrounds. The lounge area comprises an Interfar library with built-in lighting.

The kitchen is a cook's delight with European appliance, induction cook top and huge walk in pantry with Blum slide out drawers.

Relax in the resplendent Master bedroom complete with walk-in-robe and ensuite. The remaining 3 bedrooms are all huge in size and have built-in-robos.

Lifestyle at its best, you will love watching the abundant bird-life around the dam from the "Vergola"
