Retreat in Sydney Greater Region

PRICED TO SELL!! The owners are motivated and will consider all serious offers.

We are proud to offer this exclusive rural property, located in the heart of Lakesland district.

There is plenty of appeal & character on display with the unique property situated in the National Park. This property is unique with the current owners living the last 43 years in this private haven. Unfortunately, it has come time to sell.

Total seclusion and privacy, under tree canopy there are rainforest, waterfalls rock pools with ferns, massive rock formations, spring fed creeks and much more to explore. Fauna and flora in abundance. Ample wildlife including wallabies, possums, wombats, echidna, wedge tail eagle, king parrots, finches, lyrebirds and many others.

The current owners have put a lot of hard work into the property with the mature established gardens and amazing presentation of the home. The property has it all, native wildlife including
